

Shiksha For the Market

Let's Empower the Traders and Investors!!!

Price Analysis Course

Course Timing: 3 Weekends (Saturday & Sunday) 9am to 6pm.

Support:

- A. Voluntary Free Webinar Support During Course
- B. Voluntary Free Webinar Support Post Course to solve queries
- C. Live Webinars to Share/Explain certain important scenarios during Live Markets

Course Contents:

Day 1 & Day 2

1. Indicators

- a. Rising Channel & Falling Channel
- b. Director Pattern
- c. BDP / WDP / JWD & JGD
- d. New BDP / New WDP (For Gap Trading)
- e. Kiss Value (to Trail Stop Loss)

2. Concept with case studies

- a. Trend (Derived from placement of BDP & WDP)
- b. Theory

i. Uptrend Theories

- 1. Sleeping Beauty in FC or Higher Gap in RC (BDP)
- 2. BDP In ICRR (BDP)
- 3. Knock Knock in RC (BDP)
- 4. Cut Cut Pickup in FC (WDP)
- 5. Catching the Falling Knife (WDP)
- 6. $WDP < FC100\%$ (WDP)

ii. Downtrend Theories

- 1. Reverse Sleeping Beauty in RC or Lower Gap in FC (WDP)
- 2. WDP in ICRR (WDP)
- 3. Knock Knock in FC (WDP)
- 4. Cut Cut Pickup in RC (BDP)
- 5. Cutting the Flying Kite (BDP)
- 6. $BDP > RC100\%$ (BDP)

3. How Market Opens
 - a. Rising Channel
 - i. ICRC
 - ii. RMSL Higher
 - b. Falling Channel
 - i. ICFC
 - ii. RMSL Lower
4. Gap Trading
 - a. Higher Gap
 - b. Lower Gap
 - c. No Gap

Day 3 & Day 4 - Concepts

5. ATR
 - a. ATR Type
 - i. Narrow ATR
 - ii. Expanded ATR
 - iii. Usual ATR
 - d. ATR Journey
 - i. ATR Journey Begins & Midway
 - ii. ATR Journey Completed
 - iii. ATR Journey Extends
6. Support & Resistance
 - a. Support
 - i. Active Support
 1. ICFC Active Support
 2. ICRC - Re Entry in to RC
 3. ICRC - Re Begin to Buy
 - ii. Fresh Support
 1. Upper Band Trades
 2. Stop & Reverse to Buy
 - b. Retracement
 - i. Minimum Retracement
 - ii. Maximum Retracement
 - iii. No Retracement
7. A. How Market Behaves when following levels acts on Climbing Buy
 - a. FC14.60% TVHS
 - b. Approaches Upper Band after S&R to Buy in FC
 - c. Approaches Upper Band when opens in to ICFC
 - d. Approaches RC100%
 - e. Approaches RC261.80% & vice-verse.

7. B. Target Achieved Scenario - Exit Scenario for booking profit while in Buying
 - f. High > FC23.60% TVLS
 - g. High > RC23.60% TVLS
 - h. High > RC38.20% TVLS
 - i. High > RC100% TVLS
 - j. When Climbing Buy is RC261.80% & vice-verse.
7. C. Stop Loss Scenario - For Buying position
 - k. FC14.60% TVLS
 - l. Active Support and S&R to Sell in FC
 - m. S&R to Sell in RC
 - n. S&R to Sell in FC & vice-verse

Day 5 & Day 6

1. We have learned about Indicators, Concepts, Identifying Trend, understanding trade setup theories, Gaps, ATR, How Market Opens and various exit scenarios like Target Achieved or Stop Loss triggered. Now it's time to club everything together to ascertain Buying or Selling Judgment based on Price movement in accordance with Shiksha Trading Plan. Buying and Selling Judgment is now completely framed with reason to buy or reason to sell. We will learn how to identify Higher Time Frame tone and Lower Time Frame clue to enter into Buying or Selling and using other concepts how to trail stop loss or exit on event of Target achieved or Stop Loss triggered.

We spent 6 days to understand the logic behind deriving Buying or Selling Judgment and learn reason to buy or reason to sell.

Here is the best part, everything which we have understood in these 6 days is totally computerized!!!

Yes! Each and every trade setup we learned is programmed in a way that we get the best of the best trades.

2. All the setups are complied in three different trading approach and same are available in different trade setup pages in Software. We will learn in detail all the different type of trade setups like:

- a. Pre-Opening Trade Setup Page: Pre-opening is nothing but getting prepared for upcoming period by filtering setups which will probably get active in coming period.
- b. Opening Trade Setup Page: Trade Setups that are filtered in Pre-Opening Trade Setup Page will get Live in this Opening Trade Setup Page and Since our Software is real time, you will be able to identify which trades are active on Live basis.

- c. Post Opening Trade Setup Page: Setups that are applicable only after opening period is over, will reflect in this page and validity of this page is till time-frame gets over.

3. Mainly we have only five scenarios while BUYING.

Buying in FC along with Support:

1. ICFC Active Support
2. A. ICRC - Re Entry in to RC
B. ICRC - Re Begin to Buy
3. Stop & Reverse to Buy in FC

Buying in RC:

1. ICRC Opens
2. RMSL Higher Opens

and vice-versa for SELLING.

4. Further, we will learn about a powerful tool which helps us focus only on those stocks which will be Front Runner in Buying or Selling. We have concept like

1. Front Runner After Retracement(FRAR)[®]
2. Front Runner(FR)
3. Early Buying
4. Alert Buying

This Whole tool is again 100% Computerized and runs on real time basis.

WEBINAR SUPPORT

During Course (Monday to Thursday) Webinar Support will be provided to all the participants (usually 4pm to 5pm everyday) to solve their conceptual or theoretical queries or ask any other questions as the case may be.

Post Completion of Course Voluntary Webinar support will be available from 7pm to 9pm on to solve queries of old as well as new participants. This will help new participants to improve understanding of the concept by listening to queries of old participants.

Whatsapp Broadcast for Small to Major view (mostly on Nifty Index) as per System will be shared from time to time (specially on major events like Election Results/ Budget, etc.).

Very Important Note: Though we will be sharing each and every concept of Shiksha System and follow up aid like Webinar, etc. will be provided, what it needs to be Successful is Practicing Shiksha System on historical records to understand its power and to build conviction over system in most trusted way.

Comparing Old Version of Shiksha System & New Version

Old Version	New Version
1. Manual Preparation of Charts	1. Computer based charts
2. Long Manual Alert List before Trade	2. All Alerts Computerized & Abolished
3. No Support/Resistance Scenarios	3. Support Resistance Scenarios Available
4. No Support/Resistance Log	4. Detailed Support Resistance Log
5. No Retracement Log	5. Complete Retracement Log
6. No ATR Journey Log	6. Complete ATR Log & Marking in Chart
7. No Front Runner Concept	7. Front Runner After Retracement, Front Runner, Early Buying & Alert Buying filter available
8. Alerts Like FC261.80% Approached not available	8. Various alerts During Buying and Selling available
9. No Framed Trade set ups	9. Totally framed Setups
10. Reason to Buy/Sell were not available	10. Reason to Buy/Sell for all setups available
11. It was Difficult to track multiple stocks and multiple setups	11. With help of Software we can filter different stocks under different trade setups with few clicks.

How Shiksha is Different from Traditional Technical Trading Systems

- a. Using Indicators and Concepts we firmly know whether we will be focusing on Buying or Selling before even market starts.
- b. Traditional Technical System requires one to continuously track screen and software to trade. Shiksha system is screen free trading, once you do your study before market begins, you are ready with directional view whether to buy or sell and you need not sit continuously on screen.
- c. In Shiksha System, We have Fixed Entry Points beforehand as well as we have Targets known as we enter trade. Stop Loss Levels too are defined as and when trade is initiated. Further we have re-entry levels too fixed once targets are achieved. Traditional Technical Systems lack this function as their entries and exits are spontaneous.
- d. We have very beautifully constructed Gap Theory, which helps us not to get carried away in euphoria phase of market. Usually trades end up Buying at end of bull rally or end up Selling at end of bear rally. Gap theory helps us to know in advance when to stop buying or stop selling.
- e. Shiksha System offers measurement for Retracement Levels which allow trader to minimize risk and maximize rewards. **Retracement levels are hardly offered under any technical system.**
